

OFFICIAL NOTICE

FUJI INTERNATIONAL JAPANESE LANGUAGE CENTER REOPENING

Dear valued students and customers,

Thank you for your continued trust and support.

With the latest announcement from the government, Selangor has now moved to Phase Four of the National Recovery Plan (NPR). However there are still more than 5,000 daily infections cases.

Currently we still have teachers and students who have not been fully-vaccinated yet.

Considering everyone's health & safety, we have decided to continue with online classes for all Group Classes for this year 2021, after a thorough discussion with the teachers. For Private courses students, please consult with your teachers.

We will plan to resume physical classes again in the center next year while observing the situation.

Once the date has been decided, we will then update again.

We apologize for any inconveniences caused.

Hopefully the situation will turn better and we look forward to being able to resume operation as soon as it is safe to do so.

We greatly appreciate your support and understanding.

Thank you. Stay home and stay safe.

Warmest regards,

Fuji International Japanese Language Centre
